If the turn signal (also known as a blinker or flasher) blinks rapidly or doesn't blink at all / stays stuck when engaged, this is your Explorer's way of telling you that a turn signal bulb is burnt out. Troubleshooting for burnt out turn signal bulbs in your Explorer is relatively easy - turn your hazard lights on and check the front of your Explorer and then the back, whichever side is not illuminating is the side with the burnt out bulb.

[Turn Signals for Ford Explorer for sale eBay](#)

We recommend that you change both the driver and passenger side bulbs at the same time on your Explorer as they get dimmer over time and if one is out, then the other one is likely to burn out soon. If the turn signal (also known as a blinker or flasher) blinks rapidly or doesn't blink at all or lights up without blinking when it is turned on, this is your Explorer's way of telling you that the bulb is burnt out.

4 Answers. Replace flasher relay on '04 Lincoln Aviator (Ford Explorer) The turn signal flasher relay on my 2004 Lincoln Aviator needs to be replaced. Apparently, the relays are all located on top of the fuse box under the driver side kick plate, so the whole fuse box needs to be removed to get at them.
