1985 Rv 454

Unfortunately the Chevy 454 was the right engine at the wrong time. Uncle Sam started to tighten down on emission controls in 1971 which affected a lot of the power of the 454. Another big blow for the 454 was the gas crisis of 1973 which pretty much sealed the fate for the motor

on both flat and mountainous terrain (Ford 6.8-L or GM 8.1-L). I don't ...

~~RV Gas Engines |~~
~~MotorHome Magazine~~
Your mileage is a bit low from my experience with a 34' 1985 Itasca Windcruiser with the 454. We usually got between 6.5 & 7.5

File Type PDF

1985 Rv 454

mpg, we got as low as 5 with strong head wind and as high as 8 with a strong tail wind. I have a friend with a 34' Southwind and the 454 and he gets about the same as I did. Speed was generally 58-60 mph.

Another contributing factor to how bad your motorhome's gas mileage is would be the size of the vehicle.

File Type PDF

1985 Rv 454

The bigger the size of the motorhome, the worse gas mileage your motorhome will get. This is because with a bigger vehicle, comes bigger and more parts necessary for making it able to run. The more parts you incorporate, the heavier it gets and the more pull on the engine that it exerts ...
