I have a 1999 50 hp mercury bigfoot 4 stroke and i believe it is having fuel problems.while boating saturday the rpms suddenly dropped from 5100 to 3500 and remains this way.I checked all the spark plugs they look great,i replaced fuel filter.The boat will start if i give it throttle in N but as soon as i begin to return towards idle it will die.Normally this engine runs great,could this be a fuel pump issue.

I have a 1999 50 hp mercury bigfoot 4 stroke and i believe ...

Hi, I've got a 1999 50 HP 4 stroke mercury outboard motor. Serial # 0G797897. I can only get about 1\2 to 2\3 max rpms from it under load. On the trailer with hose hooked up it'll go wide open. New fuel filter, almost new spark plugs and lots of fuel flow at the carbs. Hoping you can give me some ideas what to look for.

I've got a 1999 50 HP 4 stroke mercury outboard motor ...

The differences between two and four-stroke engines. One

# Get Free 1999 Mercury Four Stroke 50 Hp Manual

of the things you have to decide before deciding on whether you should buy a new or used Mercury 50 hp two-stroke or a Mercury 60 hp four-stroke engine is knowing the difference between two- and four-stroke engines and what it means to you.
