These Audi A4 H&R Sport Suspension Springs Kit will lower your A4 an average of 1.5 - 2 inches for a lower center of gravity, improved handling and a more aggressive appearance. H&R Sport springs feature a spring rate that is firmer than that of their OE Sport spring, but is still comfortable enough for daily use.

[2009 Audi A4 Performance Lowering Kits - CARiD.com](#)

Audi B8 A4 Lowering Springs (2009-2016) Lowering springs (or coil springs) can improve the styling of your A4 by reducing fender gap and giving it that "stanced" look, but can also improve handling by lowering the cars' center of gravity which reduces body roll and front-end dive. If you're looking for an inexpensive way to lower your car without replacing your shocks and struts, we carry a wide variety of lowering springs for your '09-'16 A4 from brands like Neuspeed, H&R, Eibach and more.

Audi A4 Lowering Kits With more valves per cylinder than we can count, the Audi A4 has been a performance leader since it was first introduced. In fact in 2009, a version of the car set a new world speed record for the fastest biogas-powered car. If that sounds like a pile of manure, you're right: biogas is produced from sewage and manure.
