2 7 Linear Inequalities In Two Variables

Graph the following system of linear inequalities. $y > (1/2)x + 1$, $y > 2x - 2$, $y > -(1/2)x - 3$. Solution.

This system of inequalities has of three equations which are all connected by an “equal to” symbol. This tells us

Where To Download 2 7

that all the border lines will be solid. The graph of the three inequalities is shown below.
