Welcome to Berkeley DB Java Edition (JE). This document introduces JE, version 12c Release 2. This document is intended to provide a rapid introduction to the JE API set and related concepts. The goal of this document is to provide you with an efficient mechanism with which you can evaluate JE against your project's technical requirements.

### Oracle Berkeley DB, Java Edition Berkeley DB Java Edition ...

In Berkeley DB Java Edition, an object of class Environment is mandatory to work with a BDB database. The first step in opening the database is creating this Environment object will a call to "new Environment". The first argument to this call is the path where the data of the environment (including the databases in it) is located.

### How to use Berkeley DB Java Edition » OpenAlfa Blog

Berkeley DB, Java Edition: A database programmatic toolkit. Changes in 4.1.6 Performance Enhancements When a BDB JE application has a data set that does not fit entirely in cache, AND there is no particular working set of data that fits in cache, the application will see the best performance when as much of the internal btree nodes, or index, are kept in cache.
