Supplement to "A Monograph of Clavaria and allied Genera ...

Clavaria is a genus of fungi in the family Clavariaceae. Species of Clavaria produce basidiocarps (fruit bodies) that are either cylindrical to club-shaped or branched and coral-like. They are often grouped with similar-looking species from other genera, when they are collectively known as the clavarioid fungi.

Clavaria - Wikipedia

In his monograph of the Sapotaceae (1904), however, he includes *Sideroxylon grandiflorum* (= *C. major*) and gives Mauritius as its locality, but does not refer to Gaertner's two other species. He includes one other species with *S. grandiflorum* in his section *Calvaria* of the genus *Sideroxylon*, namely *S. imbricarioides* A.DC., the 'Bois de fer' from
