The Moscow Mathematical Papyrus is an ancient Egyptian mathematical papyrus, also called the Golenishchev Mathematical Papyrus, after its first owner outside of Egypt, Egyptologist Vladimir Golenishchev. Golenishchev bought the papyrus in 1892 or 1893 in Thebes. It later entered the collection of the Pushkin State Museum of Fine Arts in Moscow, where it remains today. Based on the palaeography and orthography of the hieratic text, the text was most likely written down in the 13th Dynasty and bas

Math in Moscow – Study Abroad Program in Mathematics  
A substantial lead gift from the long term Math Circle supporter Sierra Chen has established an endowment honoring the late Math Circle's founding director Olga Radko. Thanks to Sierra's generosity, the Math Circle will now be named the UCLA Olga Radko Endowed Math Circle (ORMC). To ensure long-term stability of ORMC we will be launching a fundraising campaign with the goal of bringing the ORMC total endowment to \$2,000,000.

Welcome to the ULCA Olga Radko Endowed Math Circle

(ORMC)!

In Moscow the same group of the University professors and postgraduate students that launched the Olympiads (see Historical Remarks) also established a tradition of “mathematical circles” — weekly gatherings of schoolchildren at the University, where they can attend a lecture, solve some problems, report their progress and get advice.
