~~Mathsticks resources aim to make maths meaningful and have been trialled, adapted, tested and retested with children in the classroom. They are based on the need for children to be fully involved in their learning; to have fun, and to enjoy and achieve while developing their mathematical skills. The resources are the result of practical experience, research and the firm belief that effective mathematical learning is best achieved through:~~

- The use and application of mathematics.

~~A long time ago (okay not that long) in an old A-Maths Syllabus far, far away, there was an evil topic called Relative Velocity - where a mere mention of its name would strike fear into the hearts of students, caused teachers to quit, and made babies cry at night.. So one can imagine the national euphoria that reached epic proportions when the said topic was removed from the New Syllabus ...~~

Colouring for Symmetry There are lots of effective ways to help children understand reflective symmetry. We can: find symmetry in nature, create symmetrical patterns with blocks, counters, lego bricks... etc., make symmetrical pictures with folded paper and paint-covered-string, place a mirror on random pictures (or objects) and see the symmetrical patterns appear, look for symmetry in common ...
