This module provides an understanding of the historical processes which have created modern Africa. Extending from the deep past to the dramatic transformations of the twentieth century and on to the present day, it explores the ways in which the continent's history has shaped contemporary societies and politics.

Modern Africa: History, Politics and Society

That is to say, while the reality of African politics appears not to fit into the framework of political science theory, at the same time, political science has actively ignored the experience of African politics (an example of this is researchers who take a pessimistic view of Africa based on the "absence" of Western-style democratization and civil society).

Introduction. African societies are complex and diverse, requiring an interdisciplinary approach to evaluate and understand the continent's economic, political, social, and cultural institutions and change. The study of African societies has become an established area of scholarship, with sophisticated analyses that are far from earlier works that presented them in simplistic terms and only in relation to the "developed" other regions.
