Afrika is the world's second-largest and second-most populous continent, after Asia in both cases. At about 30.3 million km 2 (11.7 million square miles) including adjacent islands, it covers 6% of Earth's total surface area and 20% of its land area. With 1.3 billion people as of 2018, it accounts for about 16% of the world's human population.Africa's population is the youngest amongst all the ...

| The largest segments of modern Africa's economies are agriculture and mining, with tourism growing in some areas. Manufacturing industries have grown large enough to ship products across the planet, and the oil export revenues of Angola, Libya and Nigeria have the potential to change the lives of millions. Today the 54 countries of Africa have great potential, but this question must be asked ... |
