Helping working animals in Tunisia Tunisia was one of the first countries our founder Kate and Nina Hosali visited in the 1920s to treat sick and injured working animals. Today, as the Hosalis did all those years ago, our team visits remote towns and souks to provide free veterinary care for animals in need.

Helping Working Animals In Tunisia | SPANA

The main cereal crops are wheat and barley. Tunisian farmers grow olives, dates and fresh fruits for both export and domestic consumption. Meat (chicken, sheep and cattle) and vegetables (tomatoes and potatoes) represent important comestible goods as well. The main agricultural export is olive oil (FAO, 14.07.2006).

Country Profile Tunisia - International Trade Centre

Even though agritech is in its infancy in Tunisia, the sector seems to have great potential, especially for business angels interested in the country. The Tunisian-French startup NextProtein, which produces food from fly larvae, managed in the spring to raise more than \$11.8 million. A dozen agritech startups are now active in this sector, in Tunisia.

In food production, too, they have continued to use traditional methods, often as they would prepare food at home though on a larger scale. Tunisia imports very few food

products. Instead, manufacturers work seasonally with the crops available to them, believing that this way delivers the finest ingredients with the greatest flavour at the best price to use in their products.

Buy Tunisia Food - Why Tunisia?

What are the most endangered animals in the world? Surprisingly, conservationists can't agree on a universal top 10 list. Why? Well, for starters, populations are perennially in flux. Secondly, researchers use various models that disparately weigh contributing factors — like decline rates and community fragmentation.
