Handling and Ramp  
Safety are the most  
important aspects of  
airport operations. The  
safe and efficient  
ground handling during  
arrival and departure of  
an aircraft requires  
coordinated  
responsibilities amongst  
qualified persons.

## CAP 642 - Airside Safety Management

There is a general rule  
airside that no-one  
should approach an  
aircraft while the  
engines are running and  
the anti-collision lights  
are on, except in very  
specific circumstances.  
There have been  
discussions with the  
industry about the  
increasing practice of
