CONTENT AREA:

Mathematics

Course

Description: The

fundamental

purpose of this

course is to

formalize and

extend the

mathematics that

students learned

in the middle

grades. Because

it is built on

Online Library

Algebra 1

the middle grades standards, this is a more ambitious version of Algebra I than has generally been offered.

(Grades 8-9) 12

What if they
don't give you
the slope? Find
the equation of
the line that
passes through
the points $(-2,$
 $4)$ and $(1, 2)$.

Online Library

Algebra 1

Well, if I have two points on a straight line, I can always find the slope; that's what the slope formula is for. $m = \frac{y_2 - y_1}{x_2 - x_1} = \frac{2 - 4}{1 - -2} = -\frac{2}{3} = -\frac{2}{3}$

Now I have the slope and two points.
