The blog Answers in Genesis displays a mastery of what Aristotle called "Logos" in every blog. Through the use of empirical scientific data they make clear cases, and through the use of logic and rational thought they reveal the not only the truth of their own message, but the conclusions of it and reasons for holding to it verses the opposing views. Answers in Genesis Doesn't Understand "Ape-Men". This week we are returning to our series where we examine the claims of everyone's favorite creationists. Answers in Genesis, about human evolution. The purpose of this series is twofold. I want to learn more about paleoanthropology myself and how to better write about the subject, and I want to act as a resource for anyone who is questioning AI's claims but doesn't know enough about human evolution to be able to refute them.

That includes stories like Genesis, despite considerable evidence that it was derived from earlier flood-based stories from ancient Mesopotamia. They read that the god of the bible created the world in six days and they interpret that as six 24-hour days. There's no room for metaphor or translation errors.
