Well-known archaeologist Jeremy Sabloff points to ways in which archaeology might be important to the understanding and amelioration of contemporary problems. Though archaeologists have commonly been associated with efforts to uncover cultural identity, to restore the past of underrepresented peoples, and to preserve historical sites, their knowledge and skills can be used in many other ways.

Why Archaeology Matters T he goal of archaeological research is to understand how and why human behavior has changed over time and how the human past impacts our lives today. Archaeologists seek to understand why significant cultural events occurred, such as the development of agriculture and associated sedentary villages and cities, or why civilizations emerged and/or collapsed.

the archaeology and history of Islington. We liaise with the council and others in matters of planning and development to record and protect Islington ' s sites that are of archaeological and historical importance. We also aim to document archaeological findings in the borough. Local historical and literary walks are arranged for groups.
