AS/NZS 3010:2005 – Standards New Zealand

According to AS/NZS 3000 & 3010 as a “generator” both Actives and Neutral must be able to be disconnected.

Access Free As Nzs 3010

With the ones [sic] that now can act as a “stand alone generator” when the grid is down it introduces different requirements to meet this and both AS/NZS 3000 & AS/NZS 3010 have specific requirements and 4777 is

Access Free As Nzs 3010

aligning with these.
