I have recently bought in the two device-Asus vivo tab smart and the Asus transboard keyboard. initially i was able to set up n paired up the two device. After i try turning off the keyboard, the blue tooth keyboard can only be recognized on windows with status "working properly", however it cant function properly.

### ~~Asus VivoTab Smart Review - YouTube~~

Asus have told me that it is not a reoccurring issue! Not sure if it was the computer store or Asus who were more unhelpful, but it takes over a month to get a resolution on every RMA. Computer shop refuses to issue a refund, but have to replace the motherboard of each device as a 'precautionary measure'.
