Your baby will be weighed at birth and again during their first week. They will also have a thorough physical examination within 72 hours of being born. A health professional will usually check your baby's eyes, heart, hips and – for baby boys – testicles. Read more about the newborn physical examination.

~~your baby's health and development reviews — NHS — NHS~~

One of the best ways to protect your baby against diseases like measles, rubella, tetanus and meningitis is through immunisation. Your baby needs their first injections at eight weeks, then 12 weeks, 16 weeks and one year. Vaccinations are offered free of charge in the UK – just book your appointments with your GP.
