Basic writings of existentialism : Marino, Gordon Daniel

...

Existentialism is a philosophy that emphasizes individual existence, freedom and choice. It is the view that humans define their own meaning in life, and try to make rational decisions despite existing in an irrational universe. It focuses on the question of human existence, and the feeling that there is no purpose or explanation at the core of existence. . It holds that, as there is no God or ...

File Type PDF Basic Writings Of Existentialism

Existentialism does not deny the validity of the basic categories of physics, biology, psychology, and the other sciences (categories such as matter, causality, force, function, organism, development, motivation, and so on). It claims only that human beings cannot be fully understood in terms of them.

Existentialism (Stanford Encyclopedia of Philosophy)
You can always and continually choose your attitude towards life. * In existentialism, the individual's starting point is characterized by what has been called "the existential attitude", or a sense of disorientation and confusion in the face of...
