One place to locate the ideas of ecological restoration and invention is in the tradition of political theory. Strict adherence to a policy of preserving nature from human dominion represents an assertion of nature's independence. Landscape restoration and invention, however, seem to entail the extension of human sovereignty over nature.

It is both sad and encouraging that humanity is debating preservation, restoration, and creation of landscapes. Beyond Preservation: Restoring and Inventing Landscapes will improve your understanding of this multifaceted debate, landscape changes (both natural and human-induced), the importance of biodiversity, niches that house diverse species, and our life-support system.
