It's called the blockchain. The first generation of the digital revolution brought us the Internet of information. The second generation—powered by blockchain technology—is bringing us the Internet of value: a new, distributed platform that can help us reshape the world of business and transform the old order of human affairs for the better.

~~Blockchain Revolution: Don Tapscott, Alex Tapscott, Jeff ...~~

The blockchain is another revolutionary technology that can change the ways of the internet just like open sourced software did. Just like them, blockchain will take up some time to cool off and get reasonably priced for everyone to use in modern developments. It could take years to reach the real potential that lies within.
