Blue Line Imperative

As we say often in The Blue Line Imperative, value creation occurs when more happiness is delivered to people than alternative uses of the same resources, or the same happiness is delivered using fewer resources. An example of the latter appears in the latest issue of Popular Science.

The Blue Line Imperative

The Blue Line Imperative demonstrates with powerful clarity why the goal of any value-driven enterprise is to raise the blue line as high as possible, and shows us how to achieve it. About the Author KEVIN KAISER is Professor of Management Practice at INSEAD and Director of INSEAD's Transition to General Management program as well as Director of the ABN Amro Managing for Value Research Fund at INSEAD.

The Blue Line Imperative: What Managing for Value Really ...

"The Blue Line Imperative provides valuable lessons about what value is, how to measure it, and how to create it. Many companies follow the red line, thinking it is the right thing to do. This book explains why the red line ultimately does not work and why the blue line does."

Empirical support for Blue Line Management. Jilian Popadak is a PhD student at Wharton. Employing an interesting and innovative research design, she has produced a working paper (link is here) which tests one of the cornerstones of the blue-line argument: namely, that companies that focus management efforts on indicators (the red line) and not on intrinsic value (the blue line) will [...]

Value destruction : The Blue Line Imperative

A so-called thin blue line flag on a truck in Pelham, N.Y. The flag has become a point of contention amid a national reckoning over racism and police violence.

What Happened When a School District Banned Thin Blue Line ...

This approach leads to the Three Pillars of the Blue Line Imperative: Fairness, Trust and Learning. 'The logical cornerstone of fair process: the willingness and ability to change'. These are words associated with management and leadership more than finance - and as the authors note these are the culturally critical skills organizations need to foster to create real, sustainable value.
