manufactured in Berlin, Germany, by BMW from 1974 to 1976. The "slash six" models departed from the earlier "slash five" slightly. First, the smallest displacement changed from 500cc to 600cc.

[BMW /6 motorcycles - Wikipedia](#)

So an R60/6 is a 600cc 6-series, the R75/6 is a 750cc 6-series, and the R90/6 is 900cc 6-series. By the mid-1970s BMW had been building motorcycles with air-cooled boxer-twins for 53 years. The first had been a relatively simple machine with an engine developed from a reverse-engineered Douglas motor.

The /6 seat modification . BMW seats have one weak area, the hinges. They break off easily and are a real pain to find and replace. There is another way to do it. I forget who came up with this mod, but we thank him. The seat can be modified to lift up off of the bike. This is a real advantage for the bike with saddlebags. The entire locking system stays the same. Here is what the bike looks ...

CBD eventually managed to secure a rather tired and neglected but unmolested silver 1974 matching numbers R75/6 from the US. Owen says his intention was always to restore the bike and keep it as original as possible with one or two upgrades, such as electronic ignition and a few individual touches.
