The flat or boxer engine found in most Subarus is an easy one to catch by its sound. It's part throaty bass - like the original VW Beetle - with a distinctive high-end note. The name comes from a unique configuration designed by Karl Benz in 1896; pairs of pistons pushing horizontally, much like the double glove touch of boxers before a bout. The classic boxer sound derives from both the piston configuration and the exhaust manifold design which consists, in a four-cylinder, of two long and ...
