BUILDING GREY MATTER INFRASTRUCTURE. BUILDING GREY MATTER INFRASTRUCTURE: “The greatest contributor to economic growth is not physical infrastructure, but brainpower: what I refer to as “grey matter infrastructure”. Stunted children today leads to stunted economies tomorrow. Let us, together, end the scourge of malnutrition. It is well within our reach to do so, and the evidence is overwhelming that we must act – and act now.”.

and speech. With age gray matter in the brain decreases. However, meditation, yoga, omega-3 and many other things can increase the gray matters in the brain.

How to Increase Gray Matters in the Brain - Meditation and ...

Gray matter (GM) consists of neuronal cell bodies that make up the bulk of neural matter in different brain regions such as the cerebral cortex (Latin for "bark") of the cerebrum.

Why Gray Matter Volume and White Matter Connectivity ...

Your brain is made up of multiple tissues, blood vessels, and cells, but consists of two main types of tissues: gray matter and white matter. At its simplest level, grey matter largely controls physical movements and sensory activities. White matter is responsible for communicating between areas of the brain. Neuroplasticity generally refers to our ability to create new grey and white matter in our brains through learning and experience.

Trying New Things Boosts Your Brainpower

The MRI research revealed that alcohol abstinence led to brain volume increases in key areas including the frontal lobe and cerebellum. This involved both gray matter and white matter. When the researchers studied the positive changes in gray matter volume, they concluded that most of these changes occurred in the three-week span between the end of the first week of abstinence and the end of the first month of abstinence.
