Revised on June 19, 2020. A case study is a detailed study of a specific subject, such as a person, group, place, event, organization, or phenomenon. Case studies are commonly used in social, educational, clinical, and business research. A case study research design usually involves qualitative methods, but quantitative methods are sometimes also used.

How to Do a Case Study | Examples and Methods - Scribbr

What is a Case Study? A business case study is simply a story about how you successfully delivered a solution to your client. Case studies start with background information about the customer, describe problems they were facing, present the solutions you

CASE STUDY: \$3.3MM Credit Solution. Fast-growing, asset-light industrial services company secures working capital. August 2020 With service demand outpacing their existing working capital, an industrial services equipment installer needed additional financing to confidently take on new jobs. Their existing lender, a regional bank, would not accommodate a new capital ask due to the company's lack of assets to collateralize a new loan and business growth risk in the pandemic-driven economy.
