The Foxeer CAT
Super Starlight FPV
Camera is an
amazing leap forward
in FPV camera
technology. The Cat
is a purpose-built low
light camera that
gives some of the
best night flying video
you'll find anywhere,

but the kicker is that the Cat performs great in daylight as well.

Foxeer Cat Super Starlight Low Light FPV Camera
The Foxeer Predator V2 FPV camera comes with standard accessories. Here is a side by side comparison between

File Type PDF Camera Manual

the V1 and V2, they look identical from the outside. So there really isn't much to talk about. The only way I can tell them apart is by the label on the lens.

Foxeer offers two
camera sizes for the

The Monster Pro Mini
camera comes in a
shiny, sturdy black
plastic housing, which
is the same case
used on the Predator
Mini. If you look
closer, you will notice
the Monster Pro has a
larger, 1.8mm lens

versus the common
2.1mm lens used on
many other Foxeer
cameras.
