The CAMERON T30 Series fully welded ball valve is one of the most trusted valves in the petroleum industry. Its distinctive design imparts increased strength at reduced weight as well as increased resistance both to pipeline pressures and stresses. The valve combines the strength of forged components with a lightweight and compact spherical design that eliminates body flanges, thus reducing overall size and potential leak paths.

### *CAMERON T30 Series Fully Welded Ball Valve | Schlumberger*

CAMERON fully welded ball valves can be supplied to API 6fA, API 607 and ISO 10497 standards. fire-test programs are ongoing. If industry standards change or customer requirements vary from above, please contact your sales representative. HSE CAMERON fully welded ball valves reduce the work required to operate the valves by up to 75% fewer

### *CAMERON T31MAX High-efficiency Fully Welded Ball Valve*

The CAMERON T30 Series\* fully welded ball valve is a bidirectional, trunnion-mounted ball valve with a lightweight spherical body design and superior stem seal design compliant with fugitive emission regulations. The CAMERON T30 Series valve design increases service life, reduces leak paths, and offers optimal resistance
