vibration. Both an alarm and an immobiliser are important security devices for vehicles and work together to protect your possessions and the vehicle itself.

~~Thatcham devices: what is a Thatcham Category alarm? | RAC ...~~

The discerning advantage of the given car alarm system is that it has a special compartment for keeping an ignition key this way saving you the trouble of carrying around a bundle of keys. With that, the controller itself doesn't look bulky and has a very compact and stylish design. The instructions describe the programming procedure quite poorly.

Usually, the fuse box for the alarm is located below the steering wheel on the left side. However, if your alarm system happens to be an after-market one, then you will find your alarm fuse in the hood. Check the user's manual for the diagram of the fuse box. Your alarm fuse is likely to be marked with a symbol.
