China is not the only candidate for a 21st century ...

The Chinese Century is a neologism suggesting that the 21st century will be geopolitically dominated by the People's Republic of China, similar to how "the American Century" refers to the 20th century and "Pax Britannica" ("British Peace") refers to the 19th. The phrase is used particularly in the assertion that the economy of China will overtake the economy of the United States as the largest ...

Chinese Century - Wikipedia

"Belt" is short for "Silk Road Economic Belt", referring to the proposed overland routes for road and rail transportation through the landlocked Central Asia along the famed historical trade routes of the Western Regions; whereas "road" is short for "21st Century Maritime Silk Road", referring to the Indo-Pacific sea routes through Southeast Asia to South Asia, Middle East and Africa.

Belt and Road Initiative - Wikipedia

The 21st Century's China/Africa economic train has left the station. Few Europeans and

Americans are consciously privileged to watch it go by much less get on board. This action packed economic affair is happening under the radar as the West, mostly stuck in delusional indifference, slumbers in ignorance.

China/Africa & the 21st Century eBook by Prizgar Gonzales ...

A tacit consensus is emerging around the idea that after China, what is going on in Africa will have a huge impact not only on Africa as such, but on our planet. The emerging tacit consensus is that the destiny of our planet will be played out, to a large extent, in Africa. If there is one single idea I wish you to take from this intervention, this is it.

By the end of the 20th century, the People's Republic of China (here referred to as "China", and excluding Taiwan, Hong Kong and Macau) had also become a major distant-water fishing nation (Xue 2006; Mallory 2013, 2012). However, at first, China lacked the specialized vessels required for distant-water fishing and the infrastructure required for supplying such vessels.

China's distant-water fisheries in the 21st century ...

China will need Africa's raw materials, everything from foodstuffs to minerals, in order to remain a global economic power in the 21st century. China accounts for about one-fifth of the planet's population, but it only has six percent of the planet's water and nine percent arable land, forcing its government to look outside its borders to sustain its growth and development.
