## POTENTIAL PLAYERS

Too often, developments are designed and installed before the specification is written.

Combined Heat and  
Power Guidance for  
Contractors ...

Combined heat and power (CHP) is the production of electricity and useful heat in a single process. In CHP plants

# Where To Download Chp

the heat produced during the generation of electricity can be put to good use, rather than being wasted. Centralised power generation in the UK has an average delivered efficiency of only around 40%; in other words, far less than half is supplied as electricity to the point of use.
