Content Server Administration

Using TMS to Schedule Calls on a
Content Server Cluster. Cisco
TelePresence Management Suite
(TMS) 12.2 or higher can be used to
schedule recording calls on a cluster.

We recommend that clusters use
either TMS to schedule calls or ad hoc
dialing. A mixture of scheduled and
ad hoc dialing is not recommended.

Cisco Telepresence Content Server Administration And User ...

Hi, One of my customer suggested a scenario. They have 5 sx-series telepresence endpoints which are registered on CUCM. Also they have one telepresence content server for recording purpose. All are connected to same switch. They are suggesting to do the span on switch and record the meetings. Is it...
