to play voice messages with the IMAP client: there are no replies or forwarding capabilities. Passwords are not synchronized between IMAP clients and the Cisco PCA.

~~Cisco Unity Connection Voicemail User Guide~~

Connection user: Connection plays the message number, time stamp, and name and/or extension of the user who left the message. Unidentified caller: Connection plays the message number and time stamp. Connection may also play the phone number of the caller, if the number is available and if the system is set up to do so.

Your first step in using Cisco Unity Connection is to enroll as a user, which you do by phone. Typically, Connection is set up so that you hear the first-time enrollment conversation when you call the system for

Acces PDF Cisco Unity Connection User Guide 8

the first time. The first-time enrollment conversation is a set of prerecorded prompts that guide you as you do the following tasks:

Hi all, Is there a way to call into Unity Connection from an outside phone that does not require the * before inputting the number? I thought there was, but am not finding it now. Also, other than 9 to fast forward is there a way to go directly to the body of the voicemail message? Thanks Bernece
