Alfa Laval PHE or gasketed plate heat exchangers are well-known for their optimization of heat transfer by using large surface corrugated plates drawing heat from one liquid or gas to another. The outstanding reliability and the high degree of efficiency of the compact design, grants an attractive investment over product life time.

Alfa Laval Heat Exchangers Plates » PHE Nordic A/S

Reconditioning and preventive maintenance. All heat exchangers lose performance over time. Alfa Laval's cleaning equipment (CIP) provide quick and easy in-line cleaning, but we recommend sending the units for recondition on a regular basis to reset the status of your equipment to an as-good-as-new condition.
