research led to the belief that every interaction establishes cognitive structure in children.

Jean Piaget: Cognitive Development in the Classroom ...

To Piaget, cognitive development was a progressive reorganization of mental processes as a result of biological maturation and environmental experience. Children construct an understanding of the world around them, then experience discrepancies between what they already know and what they discover in their environment.

Jean Piaget's Theory and Stages of Cognitive Development ...

Jean Piaget 's theory of cognitive development is well-known within the fields of psychology and education, but it has also been the subject of considerable
