5 Easiest Kit Airplanes to Build from Scratch - Insider Monkey

As a British ex-pat living in Brunei, I'm now building version 3 of my Boeing 737 home build/DIY Sim. With limited resources, postal services, and a very restricted budget. Learning from the previous simulator builds, I'm going for more realism and full scale. Hoping to inspire and allow others to create their sim build cheaply as possible.

The A220 Family's state-of-the-art flight cockpit was developed to be simple, cost-effective and smart - while also reducing pilot workload and encouraging more heads-up flying. It includes such intuitive on-board equipment as a phase of flight management system (FMS), two-mode fly-by-wire flight controls and sidestick controllers.

Cockpits - Passenger aircraft - Airbus

The console took me three days to build, install the intercom and mount in the cockpit. All the graphics and labels were created right on my PC and printed out with a color laser printer. (Courtesy of Kinko's) I carefully trimmed them out and stuck them on using ordinary lamination sheets.
