If you want to see real change in your life, start now by committing to it. You can do whatever you set your mind to. But you must tell your mind what to do. Ask God for direction. You can always talk to God, but you can ' t always hear from God. Allow the chaos to be removed from your mind through daily meditation and prayer.

git commit. The "commit" command is used to save your changes to the local repository. Note that you have to explicitly tell Git which changes you want to include in a commit before running the "git commit" command. This means that a file won't be automatically included in the next commit just because it was changed. Instead, you need to use the "git add" command to mark the desired changes for inclusion.
