Importance of Communication for Engineers | A-State Online
It is a process of sharing information through symbols, including words and message. Communication may happen between superior and subordinate, between peers, between a manager and a client or customer, between an employee and a government representative. It may be done face- to-face or through printed materials, or through an electronics device like telephone. In management, communication must be made for a purpose and because it has a cost attached to it, it must used effectively. 02/02 ...
