Comparing Bits and Pieces - 6TH GRADE MATH

Comparing by subtracting is one way: "I have \$2.00 more than my sister." Comparing with ratios gives different information: "I have twice as much money as my sister." Many comparisons in the real world are based on ratios rather than on differences. In Comparing Bits and Pieces, you will develop skills with fractions, decimals, ratios, and percents. Your new skills can help you make sense of situations involving fractions, decimals, ratios, and percents.

Comparing Bits and Pieces - 6th Grade Math @ E.H.M.I.S.

When you use fractions to compare a part to a whole, you often have more than one fraction name for the same quantity. For example, in Investigation 1.3, you found that $\frac{1}{5} = \frac{2}{10}$. In this next Investigation, you will compare the fundraising progress of a grade to its fundraising goal using fractions.
