One of the goals of Connected Mathematics is to assist children in figuring out as much as they can for themselves. You can help by asking questions that guide, without telling what to do or giving away answers. Good questions and good listening will help children make sense of mathematics, build self-confidence, and encourage mathematical thinking and communication.

In CMP3 Comparing and Scaling, students use proportional reasoning in contexts other than geometric contexts, and develop additional strategies for solving proportions, including efficient scaling and common denominators. They will see that rate tables are a variation on a scaling strategy, and that unit rates are particularly useful.
