Definition. Complex responsive processes is one of several views of how complex organization becomes what it becomes. The dominant alternative view is the systemic process view. See organization for a summary of causal ways of thinking about organization. Complex responsive processes of relating is descriptive, what people are doing in organizations, not prescriptive, what they could or should be doing.

Organizations: Learning And Emergence In

Complex Responsive Process: A complexity theory of human interaction. Over the past 5 years, Ralph Stacey and his colleagues at the University of ' Complexity and Management Centre have been developing a new way to make sense of human interaction (Stacey et al., 2000; Stacey, 2001). Drawing on sources in sociology, psychoanalysis and group analysis, the theory of Complex Responsive Process (CRP) is the first complexity theory written specifically about human thought and communication (in ...
