This cluster of theories dealing with the social aspects of learning is known by varying labels, including social constructivism, sociocultural theory, or activity theory.

~~Theories of Learning and Teaching What Do They Mean for ...~~

Modern learning theory views acquiring new knowledge and skills as an active process, which bases on the active participation of the individual. Previously learning assumed an active stance from the teacher, but passive reception from the learner. Children were viewed as "sponges", who should only listen to the speech of their educators.
