Crop Planning for Organic Vegetable Growers synthesizes the crop planning systems Fred and I developed through our own farming experiences and as part of Tourne-Sol cooperative farm. This book breaks the planning process down to 11 steps. It works backwards from your goals to flesh out the concrete steps you need to take to get there:

Crop Planning Book - Going to Seed with Dan Brisebois

Planning the spacing for your vegetables. The spacing of crops is determined by the ultimate height and spread of the crop. There is the space between the seeds or plants along the row and then the space between rows. Space is needed for weeding along and between rows, to create good air circulation and to allow each crop to grow to its determined size.

Organic Vegetable Growers Planning for a Bigger Future [Infographics] At heart, organic vegetable growers are optimistic. Producing organic crops commercially involves more up-front investment in labor and crop control with the hope of higher retail prices. Earning a healthy profit is delicate balance from year to year.

Organic Vegetable Growers Planning for a Bigger Future ...

While per capita fruit and vegetable consumption has remained stable in recent time, the price of vegetables has increased as consumers demand premium, fresh vegetables. So also, the number of both small and large farms has been increasing; small local farms are benefiting from the organic, local movement while large, commercial farms are improving labor efficiency.
