## *American Heart Association's 2020 CPR Updates - CPR Training*

The AHA guidelines "strongly recommend" that untrained / lay responders perform "compression-only" CPR, sometimes known as CCR.

However, medical professionals and trained lay people are

# Where To Download

still urged to give the victim two "rescue breaths" in between each series of 30 chest compressions. All the changes apply only to adult victims who collapse of cardiac arrest; artificial respiration is still recommended for children and for adults in a few cases, including near-
