~~DSEAR | key requirements from the Regulations~~

The dusts of combustible materials such as coal, wood, grain, flour, sugar, certain metals and synthetic organic chemicals can form explosive atmospheres when dispersed in air to form a cloud.

~~Guide to the Safety, Health and Welfare at Work (General ...~~

DSEAR stands for Dangerous Substances and Explosive Atmospheres Regulations 2002. It is a law designed to protect people from the risk of fires caused by the corrosion of metal and explosions within the workplace. A dangerous substance is defined as any substance present at or used at work that may cause harm to individuals as a result of fire.
