While they demonstrate some ability to critically analyze the more obvious forms of deceptive weight-loss advertising, many girls do not recognize how advertising evokes emotional responses or how visual and narrative techniques are used to increase identification in weight-loss advertising.

How adolescent girls interpret weight-loss advertising ...

Deceptive advertising of OTC weight loss products could have several negative consequences, the magnitudes of which depend on the effect of deceptive advertising on consumption. If deceptive advertising is cooperative (increases the probability of use) then the negative consequences may be substantial; those induced by the deceptive ads to

CAE Deceptive Advertising March 29 2011 - IZA

Despite the prevalence of unsubstantiated claims in online advertising of weight loss products (OAWP), consumers tend to believe they are less susceptible to advertising claims than others. Based on a sample of American women (N = 684), drawn from Mechanical Turk, the current study examined the third-person effect of OAWP. After confirming the robustness of the third-person perception hypothesis, a structural equation model examined the third-person effect (TPE) of OAWP on restrictive and ...

Consumer perceptions of online advertising of weight loss ...

Following up on that report, in an effort to identify alternative approaches to curbing weight-loss fraud, the FTC held a public workshop on deception in weight-loss product advertising on November 19, 2002. The goal of the workshop was to explore new approaches to stop false weight-loss advertising.
