The diagnostic trouble code is the code your OBD generates to tell you something is wrong. Reading as a series of five letters and numbers, the DTC allows you to home in on the system that is not functioning properly. For example, if your vehicle's OBD detects a leak in the evaporative emission system, you may see a P0442 code.

Each code corresponds to a fault detected in
the car. When the vehicle detects an issue,
it will activate the corresponding trouble
code. A vehicle stores the trouble code in
