A Dictionary of Narratology by Gerald Prince - Alibris UK  
Prince, Gerald History, literature, religion, myth, film, psychology, theory, and daily conversation all rely heavily on narrative. Cutting across many disciplines, narratology describes and analyzes the language of narrative with its regularly recurring patterns, deeply established conventions for transmission, and interpretive codes, whether in novels, cartoons, or case studies.

A dictionary of narratology by Prince, Gerald  
The dictionary thus works best for notions such as plot, actant and narrative, the three-page entry for which begins with the following definition: "the representation (as product and process, object and act, structure and structuration) of one or more real or fictive events communicated by one, two, or several (more or less overt) narrators, to one, two, or several (more or less overt) narratees. Readers interested in structuralist neatness will enjoy this authoritative compendium.
