5W-30 and 5W-40

File Type PDF Diesel Engine

are 2 common types of engine oil that you might come across. The '5' refers to the viscosity in cold weather and the 'W' stands for 'winter'. The '30' or '40' refers to the oil flow at higher engine temperatures. '30' is often for newer petrol engines, while '40' is often for older or

File Type PDF Diesel Engine Oil Engines.

Which oil does my car need? Find the right viscosity | The AA

Let us say you have a fully synthetic oil whose SAE rating reads 5W-30. The 5W means that the oil has been tested at colder temperatures and

File Type PDF Diesel Engine

Oil Grades
that it has a viscosity grade of 5 and with the “ W ” referring to winter. The 30 reflects the viscosity grade of the oil when the engine temperature is at 212 ° F. If you live in a colder environment, a 5W rating oil will be able to start your engine a lot sooner than a 10W rated oil.
